UN SDGs and Port Governance

- UN SDGs represent a great opportunity for the port sector
- How WPSP can assist ports in integrating SDGs in their policies and strategies?
WPSP roadmap on SDGs and port governance

- Workshop, UNCTAD Geneva March 2019

- Follow up roadmap:
  - Establishing a baseline, check list, data collection
  - Interactive guidance tools and methodologies
  - Provision of training
  - Quality label
Environmental Ship Index

The standard scheme for providing port incentives to greener vessels

Voluntary in nature, rewarding performance beyond compliance

**ESI SCORE** : **ESI NOx** + **ESI SOx** + **ESI CO2** + **OPS**
(maximum 100)
Progress to date

- 8 years of operation
- More than 7000 vessels registered
- More than 50 port incentive providers
Forcoming developments for ESI

- Professionalisation 2020
- Updating the website and IT infrastructure (increased reliability and user friendliness)
- Updating the ESI formula to incorporate IMO developments (e.g. 2020 Sulphur cap, CO2)
- Widening the ESI formula (e.g. noise) but leaving flexibility to incentive providers in selecting relevant modules
- Auditing
Concluding remarks

- WPSP is the world ports’ umbrella initiative on sustainability
- Get inspiration from and contribute to the WPSP projects portfolio and initiatives
