

March, 10th 20202

PRESS RELEASE

Due to the coronavirus disease (COVID-2019) and in compliance with the national recommendations given by our Members' governments, the participation of the MEDports Association to any international events and networking activities has been temporarily suspended.

Unfortunately, the ECA Seminar scheduled the 5th of March and with 80 people expected had to be therefore postponed to an undefined date.

However, the internal work inside the technical committees continues.

We hope, as many, that this situation will be the shortest possible and we invite all our members, colleagues, and friends from wherever they are to follow up the MEDports Association' production.

The General Secretary
